Letter of recommendation

To whom it may concern,

It is my pleasure to write this letter of recommendation on behalf of my student Mr. Wojciech Mojsiejuk, who enrolled in my Artificial Intelligence classes and whom I have supervised for a one-year Teamwork Project.

Mr. Wojciech was an exceptional and conscientious student in my classes, who is undoubtedly passionate about his work. Rather than use ready solutions, he wanted to get to the bottom of the problem to truly understand complicated scientific ideas. His diligence paid off, since he achieved excellent grades and a solid foundation to further develop his skills through pursuing a master's degree.

During the Teamwork Project, he portrayed himself as a top-notch leader of a group when a dispute about the project's vision and division of work arose. To resolve conflicts in the group, he reached me immediately after hearing both sides of a disagreement. Putting his own point of view aside, through his mediation, the group was able to resolve conflict without hurting any side of the argument. Thanks to his goal-oriented approach and cooperative nature his group always kept their schedule and the delivered, final project was outstanding.

In conclusion, I academically and personally recommend Mr. Wojciech Mojsiejuk as an applicant to your University. Please do not hesitate to contact me at m.kopczynski@pb.edu.pl for further elaboration, hence this letter can only be a snapshot of his talents and achievements.

Yours sincerely,
Maciej Kopczyński, PhD, Eng.
Faculty of Computer Science
Białystok University of Technology
